

IELTS Writing 1

图表题

第一分类:分为静态图和动态图

强调时间的是动态图

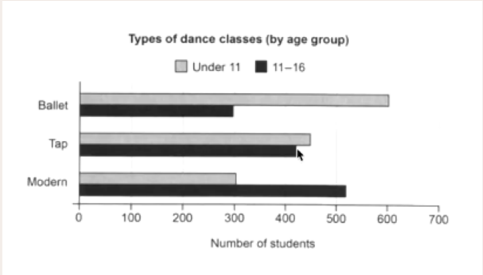

第二个分类是：pie图、line图、Bar图、Table

PIE图里面重要的是最大值的占比

主体段可以写从大到小的排序

Private studio，就是占比最大，占了48%第二名是 school halls 占了24%接下来是 community halls and other 占到了18%。最小的一项是 college based，

studios 占到10%
Bar图最重要的是写对比

例如
两个不同年龄组的对比，两个不同年龄组在同一个这个 dance class type 其中的一个对比。那接下来，我看同一个年龄组，比如说我同样只看这个 under eleven 内部它的一个变化，我们会发现在内部怎么样？ballet最多吧，modern 最少是不是11岁以下的，而11到16岁的学 modern 的最多，B 类的最少？这也是一个侧面的对比？

line图
单线的前后趋势变化、线和线之间的反超
line图大部分是动态图

表格
给的是精确的数据，但是没有一个很明显的趋势
这时候就需要你去看表格数据

结构
第一段是对题目第一句的改写，一个词都不要重复
第二段是Overview
剩下有2-3段作为主体段
在主体段之间，段内要有逻辑，段与段之间也要有逻辑
逻辑词≥3-4个，而且必须要用对
妙用代词，上下句主语一样，请用代词
表述不能太绝对，表述你的观点可以绝对，但是在论证的时候不行
不能用informal language
例如doesn't，我们要写成 does not
不能用 it's，因为 it's 可能有两个含义，一个是 it is 1个是 it has
不能写成 gonna wanna 都不行，甚至 can't 我都要写成 cannot
句型多样性

主语多样性
例题：The table below gives information about the underground railway systems in six cities. **Summarise** the information by selecting and reporting the main features, and make comparisons where relevant.
Underground Railway Systems

City	Passengers per year(in millions)
London	775
Paris	1191
Tokyo	1927
Washington DC	144
Kyoto	45
Los Angeles	50

Tokyo是这六个城市当中载客量最大的城市，达到了1927million每年

1.小标题做主语
The number of passengers in Tokyo was the highest among the six **mentioned** cities ,reaching 1927 million per year./which reached/at 1927 million

2.城市做主语
弱动词：have/get/let/make
Tokyo
Tokyo boasted the greatest carrying capacity among the six mentioned cities,reaching 1927 million per year.
Tokyo topped the list at 1927 million per year.

Boast: of a person\ place\ thing possesses a feature that is a source of pride

3.题目中心词做主语

Tokyo subway carries the most passengers xxx

4.比较级表最高级做主语

More passengers are transported by Tokyo subway than any other subways in the six cities,which reached 1927 million per year.

5.万能主语

The figure for Tokyo was the highest among xxx

句型复习训练:

1974年, road 是运输货物最多的一种在四种交通方式中, 达到了70 million tonnes.

万能主语: The figure for road was the highest among the four transportations , which was up to 70 million tonnes/reaching 70 million tonnes/with or at 70 million tonnes.

transportation modes

人\城市做主语 People used road to deliver the most parcels among the four transportations transportation modes, reaching 70 million tonnes in 1974.

中心词: Road delivered the most packages among the four transportation modes , at 70 million tonnes in 1974.

比较值做主语: More goods were delivered by road than any other 3 transportation modes , reaching 70 million tonnes in 1974.

续上

续上

除了主语可以多样，还可以用非谓语和从句
第一段的替换是有技巧的

WRITING TASK 1

You should spend about 20 minutes on this task.

The graph below gives information on the numbers of participants for different activities at one social centre in Melbourne, Australia for the period 2000 to 2020.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

Number of participants, by activity 2000–2020

首先 the graph具体化， the chart=>the line chart
gives info on

- provide a detailed overview of
- highlights data about
- illustrates the details in relation to
- illustrates the specific circumstances of
- present information about
- shows the number (可数)
- amount/percentage/quantity/proportion of

宾语部分=》从句《=》词组转换

On the number of participants. 是不是就是 A OF B 的一个格式，我们就考虑换成从句

例如Condition of marriage<=>people who get married or divorced
how much money was spent=the expenditure on
participants=people who participated in(转换)
across three continents--Asia, Europe, and the United States—
5 different/various activities=film club/martial arts/amateur dramatic.....

In an European country=in one country in Europe

一个是具体化，一个是同义替换，一个是词组转从句/从句转词组

the number of participants<=>how many people participated in

different activities<=>five activities

at one social center in more of australia<=>at an Australian social center

in Melbourne 在一个澳大利亚的社区中心，在墨尔本 OK 然后 during the twenty year period from 2000-2020

The charts below show the number of reasons why some people leave UK and why some people choose to stay

the following two pie diagrams finds the causes for individuals leaving UK and causes for individuals deciding to remain

应该用find,因为是2pie dia

UK前+the

overview段

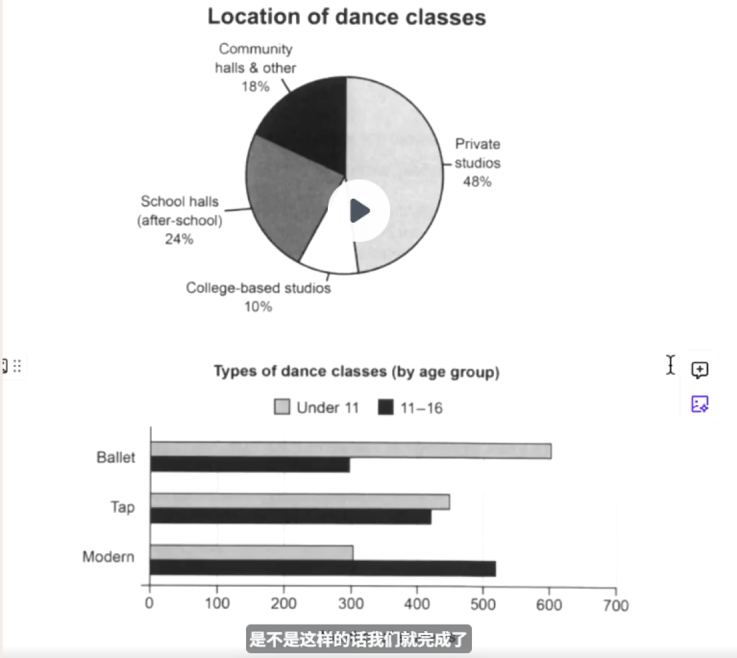

2-3句话搞定

题干提到了key feature，什么才算key呢

静态图里面只讲两个东西：①数量的极值；②数量的比较

动态图也讲两个：①极值以及极值超越关系；②趋势

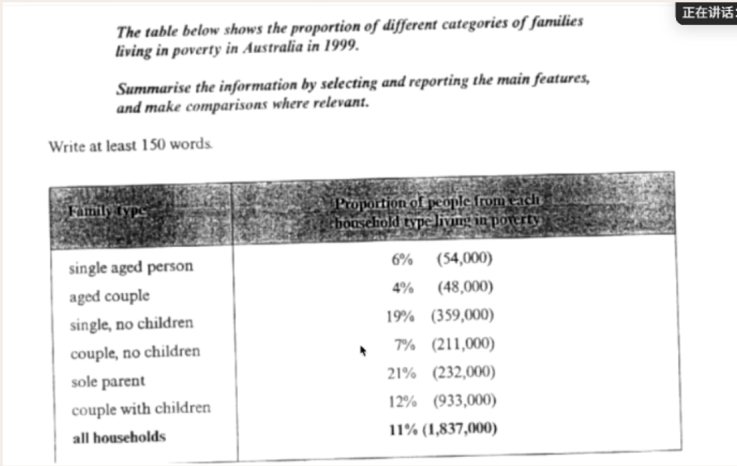

The charts below give information on the location and types of dance classes young people in a town in Australia are currently attending. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

第一句话写pie的极值；第二句写相差最大的ballet；第三句写相差最小的tap
Overall, it is clear that ballet dance class has the highest number of teenager whose age under 11 participants. We can also see that nearly half of the classes are held in private studios.

这个ov段就没有提到比较

ov段绝对不能出现具体数值，体现其地位就好，因为key feature是关键特征，是特征=》地位

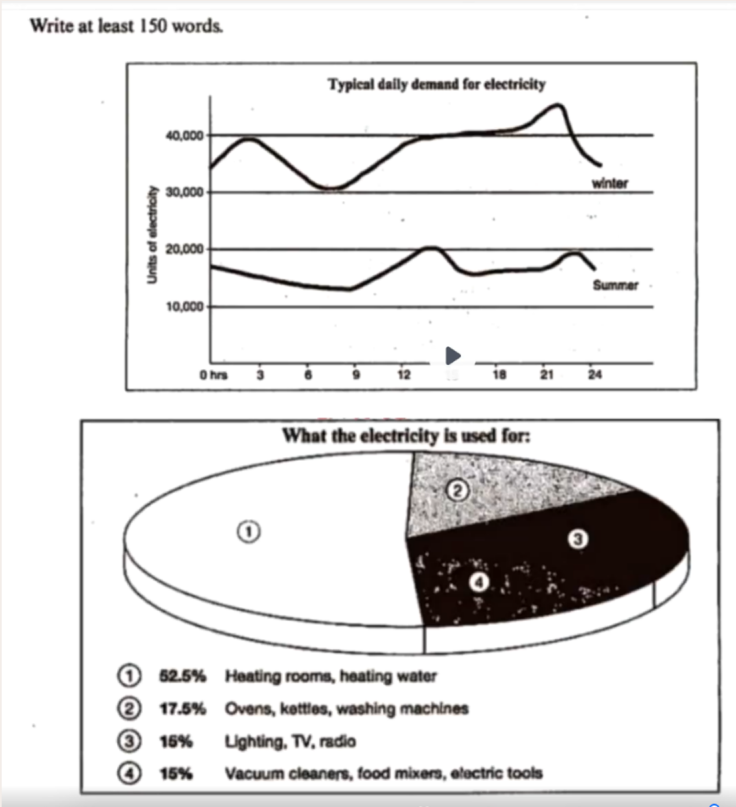

表格的ov：单人穷于多人、有孩子穷于无孩子

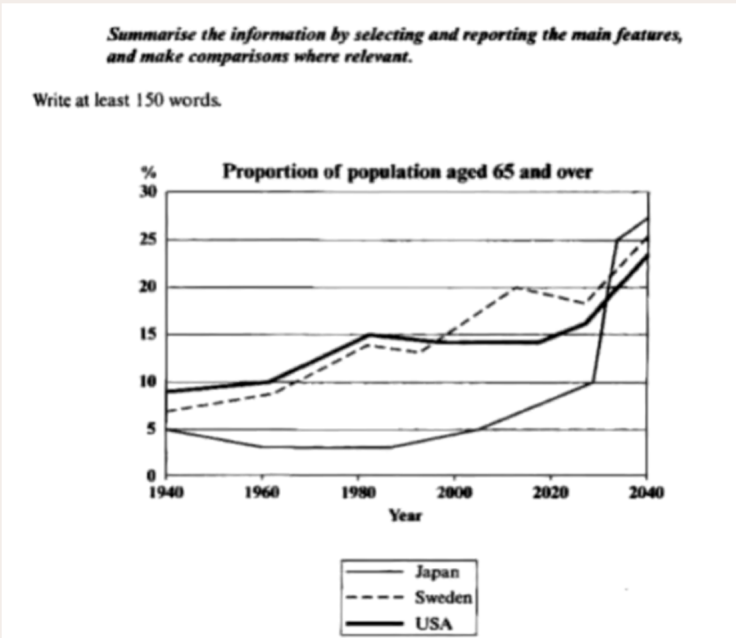

Overall, the families which only have a single aged person is are usually poorer than the families of aged couple. Also, the proportion of families which have children is are larger than the proportion of families without

having children.

首先，这个段需要补上一个极值；其次，主谓不一致

组合静态图，第一张图的winter用电量显然比summer的用电量高
第二张图，我们看到这些电力被用于heating
这两张图反映的是，因为电力多用于heating，winter最需要heating；进而winter的发电量比summer的要高得多
Overall,the daily demand of electricity in winter is usually higher than in summer. Also,the electricity is mainly used for heating rooms and water.Both diagrams depict the higher electricity demand in winter is caused by the increasing demand of heating .
整体尚可， the higher electricity demand in winter is caused by the increased demand for heating

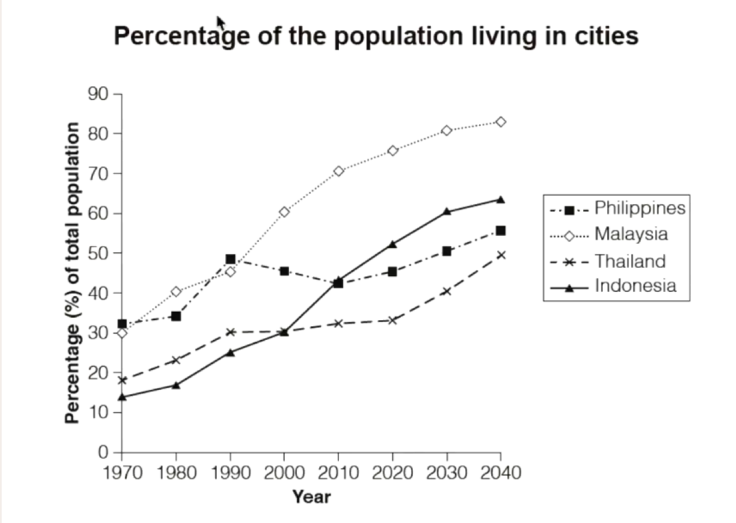

纯动态图的ov
第一点： JP overpass the SWE&USA and jump into No.1
第二点： the aging population in three country is increasing principally
第三点： SWE surpass USA during a period from 1980 to 2000
Overall , the proportion of aging population in three country is increasing principally. By contrast, the aging population in Japan will overtake the Sweden and the US and will have the largest aging population among the three countries.Also, the Sweden exceeded the US during a period from 1980 to 2000.

主体段

主体段的分类思路

The graph below gives information about the percentage of the population in four Asian countries living in cities from 1970 to 2020, with predictions for 2030 and 2040.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

the following line diagram shows the details on the proportion of inhabitants in Philippines、Malaysia、Thailand、Indonesia residing in metropolises within the past fi ve decades , and the diagram forecasts for the next twenty years.

Overall,All Four Asia countries' population residing in cities have increased rapidly in the past decades.By contrast, the amount of cities citizen in Malaysia overtook the Philippines and reached the fi rst place among the four countries . Also, Indonesia exceeded Thailand and Philippines successively.

主体段在这里的分类方案有很多种，第一种是按照时间线分，因为一个是过去的，一个是未来的

但是你会发现这种分法导致了过去那一段写起来很复杂

因此，我们还有一种分类方式

malaysia和indonesia我们可以一起写，因为两者的趋势很相近

于是M I一段，P和T一段；最后一段可以写在最终时间点分别达到多少

这样不仅能够段与段之间对比，内部也可以对比一下

IELTS补充资料Malaysia和Indonesia

总结

如果题目当中有明显的逻辑提示，我们就按照题目的逻辑提示来进行

如果没有找不到题目当中的逻辑提示。或者说题目干脆就没给，那我们就自己去找这个分段的依据

最后我必须 确保有段内对比关系和段间对比关系

静态图的主体段内容模板

纯排序

模板1

In 年份, C1 and C2 were the 最高级 (most popular\ biggest....) among C 总, **with** 数据+单位and数据+单位,respectively.

Second to them was C3, **which took up** 数据+单位.

Ranking below it were C4, **falling at\ accounting for\ standing at\ representing** 数据+单位.

Subsequently, C5 (数据+单位) was the 最高级 (least popular\ shortest....) one.

accounted for 只能用在 table 和 pie 中, stood at 只能用在bar 和 line 里面

//如果是百分比可以用 constituted\ comprised

例如 一个pie图的主体段就可以这样写

模板2 (当项目数量更多时, 用这个)

C1 accounted for \ stood at 数据+单位,occupying the largest share\ part in C 总.

Ranking below it was C2, which represented 数据+单位.

C3(A of B) was 数据+单位 (差额) fewer \ less than that\those of C2, **followed by** that \ those of C4 (数据+单位).

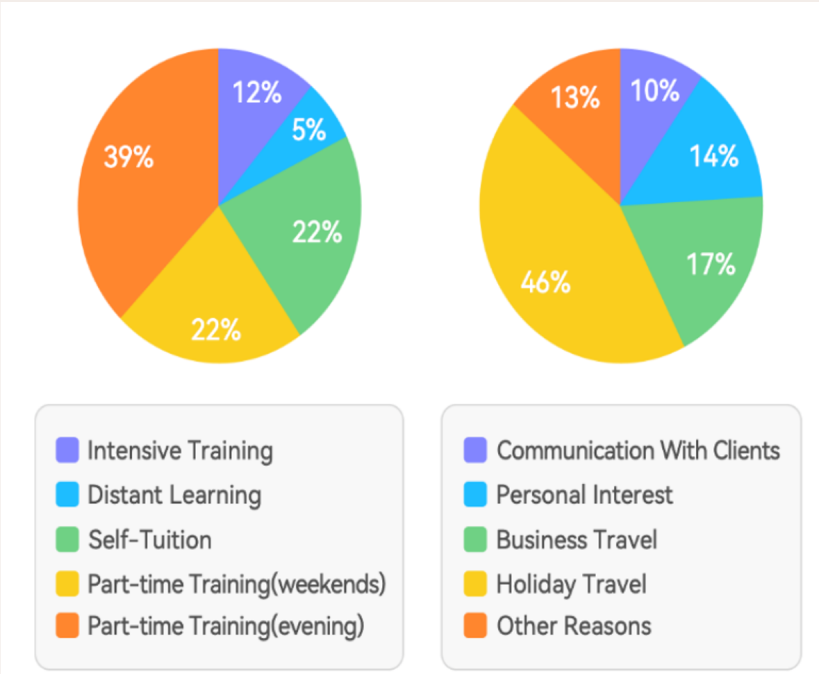

The least popular ones were C5, C6 and C7, taking up 数据+单位 (求和) in total\ ranging between 数据+单位 and 数据+单位.

当题目的项目非常多的时候，可以考虑合并来写

The chart below shows the types of communication training taken by employees in an international company and the reasons why they took part in this training.

Summarize the information by selecting and reporting the main features, and make comparisons where relevant.

Write at least 150 words.

the pie diagram depicts that employees which worked in a transnational firm , participated in communication training in different ways and the causes for them taking part in this training.

Overall, Most of employees chose Part-time training in evening and engaged the training because of holiday travel.

In the first chart,Part-time Training was in a majority . In specific,engaged in the training in evening was accounted for 39 percent and 22 percent of employees who participated preferred training in weekends.Second to them was Self-Tuition , which also took up 22 percent .Ranking below it was Intensive training, falling at 12 percent.Subsequently,Distant training was the least popular one,standing at 5 percent.

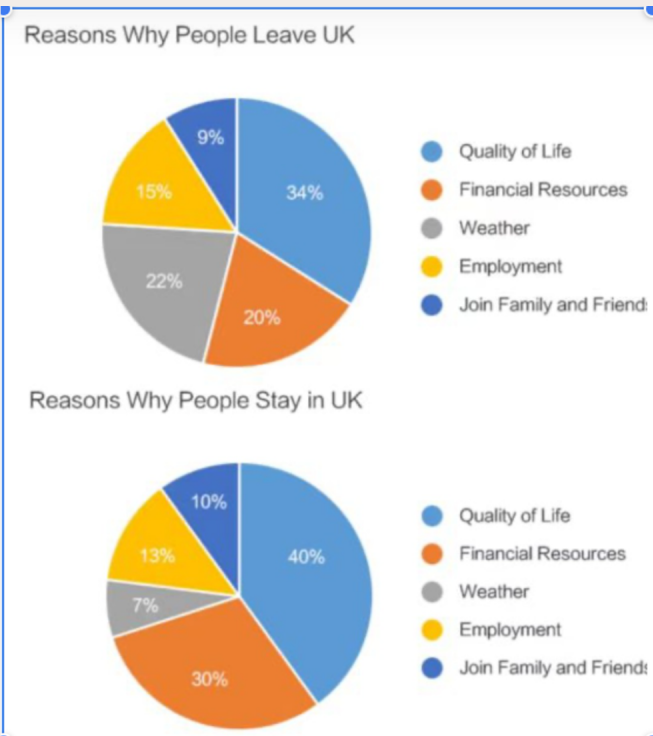

For the reasons,Holiday Travel was occupying the largest share,which accounts for 46 percent.Ranking below it was business travel, which represented 17 percent.Personal Interest was 14 percent,less than that business travel,followed by other reasons which was taking up 13 percent.The least popular ones was communication with clients, representing 10 percent.

这一个小作文，没有一个很明显的因果逻辑关系引导： **第一段就应当最开始就写 in terms of the different kinds of training.** 提到了不同种类的这个 training，之后写谁占比最多，谁是第二。。。。。

例题2:

The charts below show the number of reasons why some people leave Uk and why

some people choose to stay. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

The pie diagrams depict a number of factors **behind these individuals move** away from the UK and the individuals prefer to remaining in the United Kingdom. Overall, most of people choose to leave the UK because of Quality of Life. However, Quality of Life is also the main reason why people stay in the UK. Quality of Life and Financial Resources both reach a large proportion in the reason why people stay or leave the UK. For people who want to leave the UK, Quality of Life accounts for 34 percent and Financial Resources stands at 20 percent. For people who want to stay in the UK, Quality of Life falls at 40 percent and Financial Resources stands at 30 percent. If considered separately, Weather, Employment and Join Family and Friends do not represent much proportion and these three would amount to 46 percent in the reason why people leave the UK, which is a considerable proportion (这里改成两个对比句). But it is less than the total amount of Quality of Life and Financial Resources. Additionally, These three would amount to 30 percent which is less than Quality of Life and equals to Financial Resources in the reason why people stay in the UK.

- 1. behind these individuals move 语法不通--behind these individuals' decision to move
- 2. 介词搭配错误: at 40 percent--accounts for / makes up / stands at, 但 falls at 不标准。可以说 falls to 40% (下降到), 但这里是静态描述, **应用 stands at 或 is 40%**。
- 3. less than the total amount of Quality of Life and Financial Resources 比较对象不明确。是比“生活质量单独一项”小, 还是比“生活质量+财务”之和还小 the combined proportion/share of A and B
- 4. which is a considerable proportion but less than the total amount ... Additionally, These three would amount to 30 percent which is less than Quality of Life and equals to Financial Resources”试图在一次比较中说太多, 反而削弱了对比。建议拆成两个清晰对比句。

对比可以更强烈更具备总结性--Overall, leavers are driven by a broad mix of frustrations, with secondary factors collectively surpassing finance; stayers, by contrast, are motivated overwhelmingly by Quality of Life itself, with finance matching all other minor reasons combined.

a number of 修饰 可数名词复数

falling at\ accounting for\ standing at\ representing
