The following circle graph presents information about making a biological fuel named ethanol.

This cycle illustrates the process of producing ethanol, a biological fuel. circle
graph “用词错误

The process of producing ethanol involves nine major steps ,from gathering sunlight and carbon dioxide as energy, to adding microbes for fermentation.Then,the ethanol is transformed into carbon dioxide by consuming them. Eventually , carbon dioxide is gathered by the plants again.
逻辑混乱——阳光和CO₂不是“作为能量”，而是植物生长的原料；且这里提前提到了发酵，破坏了流程顺序。
Overall, the process consists of nine main stages, beginning with the absorption of sunlight and carbon dioxide by plants and ending with the release of CO₂ back into the atmosphere.这是“概述段”（overview），应放在开头段之后，总结起点和终点，不细说中间步骤。

At first,both sunlight and carbon dioxide are contributed to the growth of the plants and trees. **Once plants and trees have harvested ,then they are preprocessed mechanically.**
Once harvested, the plant material is mechanically preprocessed.简化结构，使用“once + 过去分词”更简洁正式

After preprocessing ,then they become cellulose.
This preprocessing produces cellulose,a key component of plant cell walls.补充术语解释，提升词汇多样性。

Next ,the cellulose is processed into suger in factories. **
Next, the cellulose is broken down into sugars in industrial facilities.用“broken down”更科学，避免重复“processed”
At last , microbes are added into the suger for fermentation. **Finally, microbes are added to the sugars to initiate fermentation.**用“initiate”更准确，体现发酵的开始。

After the fermentation,ethanol is produced,which is a biofuel for vehicles,trucks and planes to consume **重复“fermentation”；用词冗余（vehicles, trucks and planes 可简化为“vehicles”）。** **As a result of fermentation, ethanol is produced, which serves as a biofuel for vehicles.**

The diagram illustrates the process of producing ethanol, a biological fuel.

Overall, the cycle consists of nine main stages, beginning with the absorption of sunlight and carbon dioxide by plants and ending with the re-release of CO₂ back into the atmosphere.

Initially, plants and trees absorb sunlight and CO₂ to support their growth. Once harvested, the plant material is mechanically preprocessed, producing cellulose. Next, this cellulose is broken down into sugars in industrial facilities. Finally, microbes are added to the sugars to initiate fermentation.

As a result of fermentation, ethanol is produced, which serves as a biofuel for vehicles. When this fuel is combusted by engines, it is converted back into carbon dioxide. The released CO₂ is once again absorbed by plants, thus completing the natural cycle.

After the consumption , ethanol turns into carbon dioxide . **连用两个after-**

When this fuel is combusted by engines, it is converted back into carbon

dioxide.

补充“燃烧”环节，使流程完整，用“converted”体现转化。

The carbon dioxide in the air is gathered by plants and trees for the second time . The whole process forms an ethanol cycle.

The released CO₂ is once again absorbed by plants, thus closing the carbon cycle.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

ov段：集约化、专业化+依据

依旧要写方位，但是谓语动词是关于变迁的

方位的表达

A is in\ on\ to the east of B

A is in\on\to the eastern part of B

to是不接壤

a 在b 东边的角落
a is in\ on \at eastern corner of b

a 在距离b 东边的 12 千米处
a is 12 kilometers to the east \ the eastern corner of b.

又例如 A is far away from B, 修饰在Be动词和介词之间

坐落于
is
lie in (主动语态)
situate in/ stand at (主动语态)
be erected in /be located in (被动语态)
The building is erected in/stands at the opposite side of the school

A 在河流的最南端。
A is at the southern **end (末端)** of the river.
不写point /tip/top (因为是二维的)

Mountains are parallel to the rivers. (与.....平行)
Be parallel to

The church is surrounded by trees. (被.....包围)
A policeman is at the crossing/intersection/. (在.....十字路口)
Intersect with主动-相交

The playground is roughly in the middle of the residential zone. (大概在.....的中间)
The supermarket **is directly opposite to \ on the opposite side of** the bus stop.
(在的正对面)
The barber's is in close **proximity** to/near by/by the side of the hospital. (在.....
附近)
In the vicinity of (在附近)A lies B
以上都是强调比near更near

A is close to B.
A is next to B
A **is adjacent to** B紧挨着
IMMEDIATELY \ DIRECTLY 紧挨着 – 用副词修饰形容词
v+ adv+ adj

翻译句子：我邻居的花园就在我家院子旁边
My neighborhood's garden is close/next to my house's backyard.
My neighborhood's garden is in close **proximity** to my house's backyard.

The supermarket is halfway between the bank and the barber 's. (在.....半途中)
(同时写出三个地点一条线)

The motorcyclist is outside the residential zone. (在.....外面)
The shop **is along the roadside.** (在路边)

表达位置可以用的句型

句式①： We can find (项目) situated in + (方位) +(项目) can be found ...+ 方位

句式②： There was (项目) + (方位)

其他句式： 倒装结构

句式： 在 ... 有一个 ... , 在它的 ... 有 ...

方位+ lie \ stand + 景， 介词 which is + 人、物

例句：

森林的中央有一棵大树， 旁边是一间小屋。

At the center of the forest , there is a big tree and a cottage next to it.

There is a big tree in the centre of the forest,near which is a cottage.

换主语练习： 这个地区的中心是四个农场。

描述方位：

对象作主语

Four farms is in the center of this region.

there be

At the center of this region, there are four farms.

方位介词短语作主语（倒装）

The center of this region own four farms in it.

4 、地区作主语

The region possesses four farms in the centre of it.

范文: 6.5

The two maps illustrate the changes that have occurred in **University sports courts** between the year 1990 and today.

In general, there has been a transformation in the sports amenities; most of them have been redeveloped into new buildings.

In general/overall,an array of new construction are erected/has been erected in xxx,leading to the Industrialized / modernized / redeveloped / urbanized development of this area.

If we look at the east facet, the indoor building has been introduced and covered all the facilities in that area.Initially,the former cafe situated in the south east corner of the map was relocated in the north-west part of the new building.To the south of the cafe,a reception has been constructed and a fi tness centre has occupied the area of the car park.

Besides,in the south-east part of the map was an outdoor pool,which now removed to the southern area of the sports centre.It is interesting to note that the changing room has been enlarged between the fi tness centre and the indoor pool.

大作文

雅思写作重点在大作文，大作文的重点在审题

如何检验自己的审题是否正确：

- 题目中的所有点是否都回应到
- 自己准备写的方向是否能在200-300字内论证成功
- 进行初步逻辑链条的思考后思考自己的主观点本身是否合理

不要看自己真正同意谁？而要看自己哪个更好写

大作文分成三类；

结构

怎么想出理由：takeholders利益相关方的底层利益是什么？如何一步步推导？

- 观点类- agree disagree – 老板做决策 --- 必须有立场 62%
 - Agree or disagree 40%
 - Positive or negative
 - What is your opinion?
 - Advantages outweigh disadvantages 22%
 - 如果你要写it depends那么，你的分类不能有漏洞也就是没有漏情况（严谨性=》有风险）
 - 背景+改写题目+我的立场
 - 理由1+证明（个人）
 - 理由2+证明（国家/社会）
 - 辩证一下（让步/驳斥/"射箭画靶"）（点对点，例如free university即便要花钱，但是长期又benefit）
 - 总结观点立场+升华
- 论述类both views – 情侣吵架 ---- 和稀泥 // 有立场 28%
 - Discuss both views and give your opinion.
 - 3个任务-discuss view1+discuss view 2+my opinion
- 报告类report – reason, problem, solution – 下属做汇报--- 逻辑 10%+mix和观点类的行文差不多

(重点看审题思路和总体结构)

- discuss类（和agree和disagree的结构很类似）
- A观点的评论+叙述
- B观点的评论+叙述
- 让步，是为了驳斥你反对的观点
 - 犯罪类话题的共同思路：punishment的程度问题（量刑问题）；（重罚）司法公正+震慑作用《=》（轻罚）出于pratical/维护司法的sustainable
- 总结
- Some people think that lawbreakers should be sent to prison.However, others think that better talents among those should be made to work. Discuss both views and give your own opinion.**

思考路径break the law=>society : banned ,shouldn't be encourage,it should be correct
individual;society regulation and restriction and educate the youngster,protect the legal rights of the victims
lawbreakers who showed distinguished talents

As our legal system is constantly improving, there is a voice which suggest that it is necessary to send lawbreakers into jail.On the opposite, other people recommend that lawbreakers who have better talents, ought to assign some works to them.

I mostly agree with the fi rst idea.On one hand, Restricting illegal behaviours can punish the evils and raise the kindnesses.It is necessary to restrict these behaviours in order to creating a promising social atmosphere.Similarly , sending the outlaws into the prison help children to form a proper moral judgement.On the another hand,by legally restricting the outlaws in prison,we can defend our legal system efficiency .

I disagree with the second one , because limiting the lawbreakers personal freedom can prevent them from continuously threatening the victims and others.The outlaws may commit crime intentionally ,so restricting them by sending into jail can help the criminals review their detrimental behaviours . In addition, it can protect the legal rights of the victims .(人身自由 personal freedom)

Furthermore,I deem that if the lawbreakers who have talents,can work under some regulations and contribute their values to the society.This measurement may reduce governance cost and give the criminals another opportunities to turn over a new leaf. However,If the outlaws could not receive deserved punishment,the law system may lose its authority . So,from my perspective,I think lawbreakers should be sent to prison.

In conclusion,although we can let the criminals to contribute their values for practical purpose, lawbreakers should face the deserved punishments in order to warning others and upholding the justice.

2种构建论点的主要方式

抽象的概念具体化 ---what

举例:

Some people believe that free universities are a good thing. Do you agree or disagree with this view point?

免费的大学--不收学费的大学（入学门槛）/教育资源公开免费的大学（没有）

Nowadays, more poor students behaviours occurred in school , what are the reasons behind such phenomenon?（这道题的本质在于"现在更多"）

下面两个思路哪一个更好? why?

青少年犯罪问题--家庭的漠视

青少年**电子成瘾**问题影响到上课的效率--家庭/学校的监管不够(这个更好，因为题目是说：现在更多学生有poor behave；但是以前没有，关键在于)

Stakeholders利益相关方的底层利益是什么？如何一步步推导？

Individuals-health（physical+mental）=》alleviate eco pressure

Company-profit/benefi ts

Institution-

school-academic achievement（cultivate labours/innovations and projects）

Government(从民选政府考虑)-public satisfaction -votes

Society--stable- employment rate -crime/suicide rate

--sustainable

-short term policy（economic/technological）

-long term policy（education/culture/environment）

举例:

Some people think we have done too much to protect the environment.Do you agree or disagree?

避免犯逻辑谬误=>结果导向和过程导向=》 **过程导向的观点，要对应过程导向的论证**

agree=>把环境利益放在了集体利益之上，又例如太强调环境而忽视就业

disagree=>企业仍在偷排污水

审题训练:

Some people believe that free universities are a good thing, Do you agree or disagree with this view point?

开头：背景+改写题目+我的立场

理由1+证明

理由2+证明

让步

结尾：总结观点+立场/升华

Some people think we have done too much to protect the environment.Do you agree or disagree?

It is more important to plant more trees in open area than to build more houses.To what extent do you agree or disagree?

Work-life balance is becoming increasingly difficult to achieve.How can individuals and employers address the problem?

employee=>卷自己/跳槽

employers=>调整规章

Some people believe that the best way to reduce crime is to give longer prison sentences. To what extent do you agree or disagree with this statement?

去disagree=>best way是比出来的，

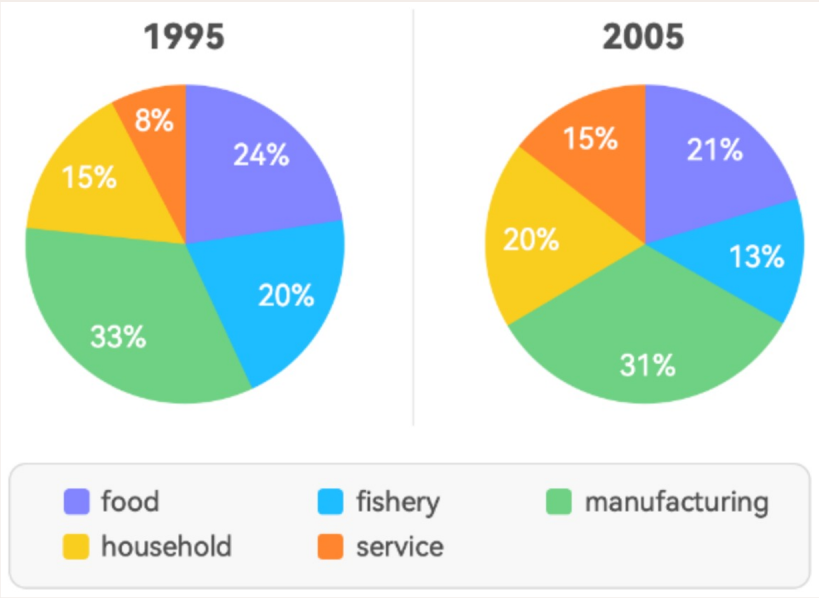

带绝对词的一般考虑disagree

The increase in people's life expectancy means that people are living longer into old age. Discuss the causes of this increase and suggest measures to deal with this trend.

suggest measures to deal with this trend=》说明会带来一些问题

银发经济/返聘制度

重写：The two pie charts show how different industries used electricity in 1995 and 2005. Summarize the information by selecting and reporting the main features, and make comparisons where relevant.

the two pie diagrams present the information of five industries utilized electricity in two singular year which is 1995 and 2005.

时间

段： between and/from to

点： in xxx

多个时间点： in the years xx and xxx, respectively/seperately. --- a,b,c and d

不确定准确时间： over the 10-year period

Overall,manufacturing remained the largest proportion of using electricity in this period.Similarly, the share of household overtook on the food and became the second place in the industries powered by electricity.Additionally, the proportion of fishery was exceeded by the proportion of service.

For the food and fishery industry,which is the primary sector,were experienced a decrease in proportion . Food industry was decreased from 24 percent to 21 percent which was a 3-percent dip . Despite the decrease , food sector remained the second place among those industries in 2005 . Compare to the food one, 2005 witnessed a plunge in fishery sector which declined from 20 percent to 13 percent.Furthermore , fishery sector became the fifth place from the third place in 1995.

For the secondary and the tertiary sector, a slightly drop took place in manufacturing but it is still the largest proportion in all five industries. Household sector experienced an significant 5-percent increase .That led to an exceeding to the fishery which was initially the third place in 1995 and caused household sector became the third sector.Additionally , service sector had the similar trend which rose from 8 percent to 15 percent and made it become the forth industries by overtaking the fishery sector.

L4 Homework

(重点看审题思路和总体结构)

discuss类 (和agree和disagree的结构很类似)

开头段

A观点的评论+叙述

B观点的评论+叙述

让步， 驳斥你反对的观点

犯罪类话题的共同思路： punishment的程度问题（量刑问题）； （重罚）司法公正+震慑作用 《=》 （轻罚）出于pratical/维护司法的sustainable

Some people think that lawbreakers should be sent to prison. However, others think that better talents among those should be made to work. Discuss both views and give your own opinion.

作业:

As our legal system is constantly improving, there is a voice which suggest that it is necessary to send lawbreakers into jail.On the opposite, other people recommend that lawbreakers who have better talents, ought to assign some works to them. I mostly agree with the fi rst idea.立场必须放在开头former/latter

On one hand, Restricting illegal behaviours can punish the evils and raise the kindnesses.It is necessary to restrict these behaviours in order to creating a promising social atmosphere.Similarly , sending the outlaws into the prison help children to form a proper moral judgement.On the another hand, by legally restricting the outlaws in prison , we can defend our legal system efficiency .

I disagree with the second one , because limiting the lawbreakers personal freedom can prevent them from continously threatening the victims and others.The outlaws may commit crime intentionally ,so restricting them by sending into jail can help the criminals review their detrimental behaviours . In addition, it can protect the legal rights of the victims .(人身自由 personal freedom)

对于“为什么监狱是必要的”，理由比较笼统（“惩恶扬善”“维护法律效率”），缺少具体展开或举例。

Furthermore,I deem that if the lawbreakers who have talents,can work under some regulations and contribute their values to the society.This measurement may reduce governance cost and give the criminals another opportunities to turn over a new leaf. However,If the outlaws could not receive deserved punishment,the law system may lose its authority . So,from my perspective,I think lawbreakers should be sent to prison.不可以两边都同意

“有才华的罪犯可以在监管下工作”，这和“同意送监狱”的核心立场有矛盾，削弱了论证力度。

题目要求讨论双方观点并给出自己看法，你对第二方观点（让有才华的罪犯工作）的驳斥较弱，没有充分说明为什么“工作”不能替代“监狱”。

In conclusion,although we can let the criminals to contribute their values for pracial purpose, lawbreakers should face the deserved punishments in order to warning others and upholding the justice.
