

IELTS Writing 5

写作点评

The two pie diagrams present the information of five industries utilized electricity in two singular year which is 1995 and 2005.

present information about不用the, 因为是第一次出现information

"industries utilized" → 定语从句缺关系代词 "industries that utilized"

"in two singular year" → 冠词/单复数错误 "in two years" 或 "in the years"

"which is 1995 and 2005" → 主谓不一致 "which are" 或 "namely"

Overall, manufacturing remained the largest proportion of using electricity in this period. Similarly, the share of household overtook on the food and became the second place in the industries powered by electricity. Additionally, the proportion of fishery was exceeded by the proportion of service.

趋势的对比: service和household上升而其它sectors下降

- "remained the largest proportion" → 逻辑不对 (行业才是主体, 不是比例) "remained the largest consumer"

占了: take up/account for/represent

- "of using electricity" → 冗余直接说 "of electricity usage" (一般用 of + 名词, 但是 of + 动名词, 这个搭配不常用)
of electricity usage

- "Similarly" → 用词不当 (这里表示对比关系而非相似关系)

- "overtook on the food" → 介词错误, 且 "food" 指代不清 "overtook the food industry"

- "became the second place in the industries" → 表达中式 "became the second-largest among the five industries"

For the food and fishery industry, which is the primary sector, were experienced a decrease in proportion. Food industry was decreased from 24 percent to 21 percent which was a 3-percent dip. Despite the decrease, food sector remained the second place among those industries in 2005. Compare to the food one, 2005 witnessed a plunge in fishery sector which declined from 20 percent to 13 percent. Furthermore, fishery sector became the fifth place from the third place in 1995.

"the food and fishery industry" → 两者应分开描述, 不然的话会被以为是一个行业叫 food and fishery, 不是同一个行业拆分为 "Both the food and fishery industries"

"primary sector" → 用词错误 ("primary" 指第一产业, 但这里不是分类标准) 直接删除或用 "both"

"were experienced" → 被动语态错误 (应为主动) "experienced"

was decreased" → 被动语态不当 (应用主动) "decreased" 或 "fell"

"which was a 3-percent-point =% dip" → 定语从句冗余合并为 "a 3-percentage-point drop"-- a 3% dip / **experienced a dip, from xx to xxx/decreasing by 3%**

10-year period

"food sector" → 缺冠词 "the food sector"

"remained the second place" → 表达不自然 "remained the second-largest"

"Compare to" → 应为过去分词 "Compared with"/in contrast to

"the food one" → 不正式 "the food industry"

"fishery sector" → 缺冠词 "the fishery sector"

"which declined" → 定语从句冗余简化

①冠词的使用: 第一次提及不用, 之后重复提及需要用; ②用It会更好; ③注意拼写和时态

For the secondary and the tertiary sector, a slightly drop took place in manufacturing but it is still the largest proportion in all five industries. Household sector experienced a significant 5-percent increase. That led to an exceeding to the fishery which was initially the third place in 1995 and caused household sector became the third sector. Additionally, service sector had the similar trend which rose from 8 percent to 15 percent and made it become the fourth industries by overtaking the fishery sector.

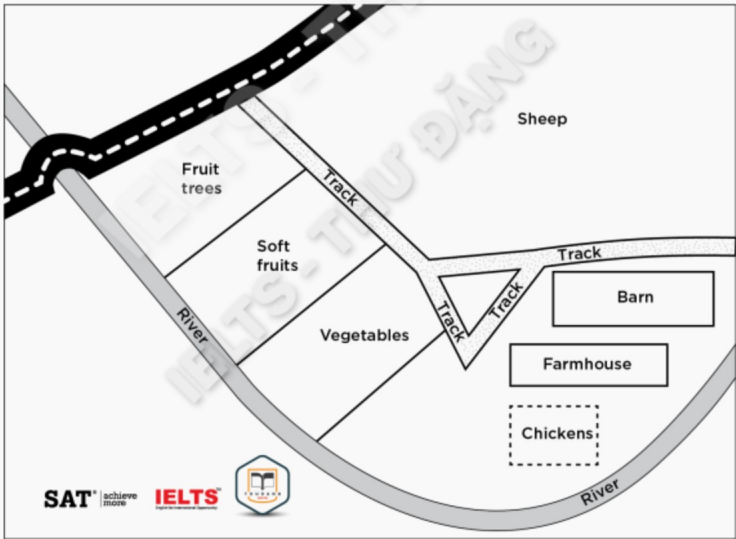

"secondary and tertiary" → 分类概念混乱 (制造属于secondary, 但 household/service不是tertiary的正确定义) 建议放弃此分类, 直接按行业描述

"a slightly drop" → 冠词错误 (应为 "a slight drop")

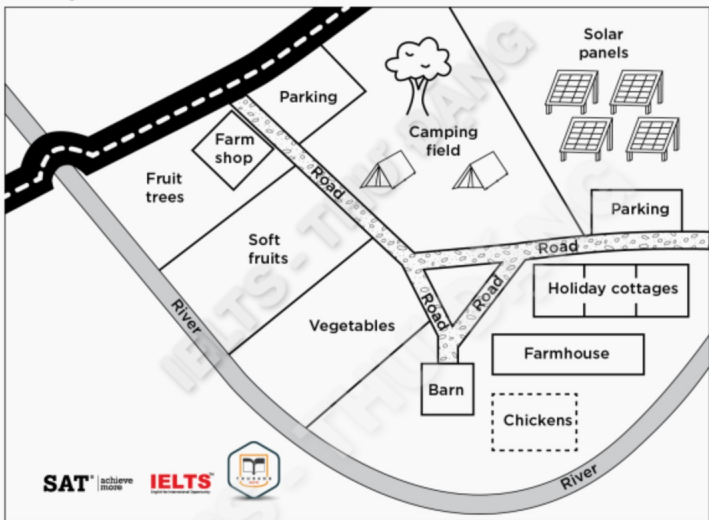

- "it is" → 时态不一致 (应用过去时 "it was")
- "an significant" → 冠词错误 (应为 "a significant")
- "5-percent" → 应为 "5-percentage-point" (百分比 vs 百分点)
- "an exceeding to" → 表达错误"overtaking"
- "which was initially the third place" → 定语从句冗余简化
- "caused household sector became" → 语法错误 (cause + to do) "caused the household sector to become"
- "service sector" → 缺冠词"the service sector"
- "the similar trend" → 表达不准确"a similar upward trend"
- "which rose" → 定语从句可简化合并
- "made it become the forth" → 冗长且"forth"拼写错误 (应为 "fourth") "rose to fourth place"
- "overtaking" → 拼写错误 (应为 "overtaking")

Beechwood Farm

1950

Today

评分：（太静态了，这个需要重写，变迁应当体现）

In beechword farm,there is a road,which was originally a track,linked with a highway and goes towards the southeast.

with/which/-ing/——(破折号)/, 定语, （插入语）

At Beechword Farm, a road — originally a track — connects to a highway and runs southeast.

从过去到今天=》用现在完成时

从过去到过去=》一般过去

从过去到未来=》一般未来

Then it **forms** a triangle junction before continuing towards the holiday cottages and another parking area. Besides,another parking lot is located in the east of the intersection with a highway and the road

To the east of the junction where the road meets the highway, there is another parking lot.

. Initially,on the north of the road,there was a grazing land for sheep .

《=》

Initially,the area to the north of the road was used as sheep-grazing land,but it

has now been replaced by a camping fi eld and solar panels.

Now,a camping fi eld and solar panels replace it .Additionally,solar panels is on the north of parking lot which is close to the cottages and a camping fi eld is on the west of the solar panels .The solar panels are located to the north of the parking lot adjacent to the cottages, while the camping fi eld lies to the west of the panels.

On the south side of the road, the area of the fruit trees is newly possessed a farm shop that tourists can buy some agricultural goods here."possessed"用词严重错误（应为"has gained"或"now contains"）； "that tourists can buy...here"定语从句冗余（"here"多余）； **"agricultural goods"可改为"local produce"**

In the southern end of the triangle junction ,a barn is erected in here.At the southern end of the triangular junction, a barn has been built.

《=》

A farmhouse is on the south of the cottages and the northeast of the barn. A farmhouse stands to the south of the cottages and to the northeast of the barn.

There is some chicken on the south of the farmhouse .

《=》

注意是养鸡的场合Some chickens are kept to the south of the farmhouse.

注意看时态--过去时+现在完成时态

让我们先回顾一下大作文的三种题型对应的不同结构

观点类---立场： 同意/不同意--理由

同意理由1

同意理由2

让步--不同意的理由+驳斥

Discuss

some people合理之处

others合理之处

我的观点（站立场） （让步）

report： 原因/解决方案/后续影响

问啥答啥

然后让我们看一看大作文的两种观点构建方式

- 1. 化抽象为具体--某一个名词下定义/解释（考虑题目存在的对立关系）
- 2. stakeholders利益相关方
 - Individuals-health （mental /physical）
 - Company-benefits--（profits） / （market share--brand effects-good reputation）
 - Institution-environments-protect the environment
 - school-academic achievement （升学率/就业率/essay/experiment/projects/invention）
 - Government-public satisfaction （votes）
 - Society--stable稳定的（employment rate--crime rate/suicide rate） -welfare
 - sustainable可持续发展
 - （long-term development） --education/environment/culture
 - （short-term development） --economy/technology

上面这个观点构建方式更像是模板，但是要想更进一步，要看下面论证的方式

主体段怎么论述（更细化的从构建观点到构建逻辑链条到造句）

下位词法

四层结构：主题句（观点） + 解释+例子+总结

层层递进，不断精确

保护环境 促进了社会的可持续发展

保护环境政策 促进了资源的循环高效利用，维持产业链的平衡。

e.g:

垃圾分类 促进了金属的回收利用

有节制的砍伐和植树造林 可以源源不断的为木材业提供原材料支持

总结可以视为：第一句的升华/rephrase--例如：环境保护的一系列举措/提高环保意识有切实的好处 **(有什么好处一定要具体说出来)**

分论点的构建

- Topic sentence的基本原则**
- 1.与题目紧密相关，不能随心所欲；一般来自原题观点改写或者稍微往下细化；
 - 2.必须是一个自己有把握能扩展的idea，否则写不动；
 - 3.Topic sentence比较灵活，有的时候只能引出一个具体的idea，有的时候方向给得比较宽，能引出2-3个具体的ideas。（但是第一种情况居多）
- 一定要坚定，分论点写得深入比写得广更重要**
- A 对 B 有帮助 A plays a pivotal role in contributing to the enhancement of B
- A 对 B 有害 A frequently results in the significant deterioration of B
- A 和B 密切相关 A and B demonstrate a profound and consistent interconnection

每个论证方法的逻辑链分析（提出观点 + 扩展延伸 + 举例论证 + 结果分析/合理性推断）

提出观点之后。因为通常观点就是一句话或者一个短语，比如：航空旅行给普通人提供了便捷的旅行和就业机会，需要逻辑链思维进行辅助，把这个主体段扩展开来

- a-b and a-c
- 解释：a-b+ 例子
- 解释：a-c+ 例子
- 总结，rephrase观点（升华）

逻辑点

首先逻辑链作为“链”，意思是每一句话都和上一句存在逻辑关系，除了每段的首句进行提出观点外，其他句与句的逻辑关系为以下几类：

- 扩展延伸的展开性论证（支持性理由）
- 解释：为什么会出现上一句提到的现象，为什么上一句提到的观点是正确的，把观点进一步拆分论述
- 例如：城市的交通拥堵非常严重（观点或现象）。这是因为城市往往未能投入足够的公共交通系统建设，迫使居民在日常通勤中严重依赖私家车（扩展延伸）。（直接解释“城市交通拥堵的现状”） Urban traffic congestion is very severe . This stems from the fact that cities often fail to invest adequately in public transportation systems, forcing residents to heavily rely on private cars for their daily commutes **(elaboration)**.
- 还例如：男女平等分担家务的一个重要原因是公平（观点或现象）。当双方都对家务做出同等贡献时，可以确保任何一方都不会感到负担过重（扩展延伸）。（直接解释“为什么平等分担家务能够体现公平”）
- An equal division of household chores between men and women is important for fairness(viewpoint or phenomenon). When both parties make equal contributions to housework, it ensures that neither side feels overburdened **(elaboration)**.

举例论证

- 解释：例如...，用于佐证上一个观点，可以列举实际的数据或情况，也可以列举虚拟场景，再通过合理性推断梳理内容
- 例如：荷兰通过自动化已经提升了20%的畜牧业效率（实际）
- The Netherlands has increased the efficiency of its livestock farming by 20% through automation(actual).
- 例如：当机器人助手承担所有家务时，人们可能会丧失独立完成基本任务的能力（假设性情景）
- For example: when robot assistants take over all household chores, people may lose the ability to independently complete basic tasks (hypothetical). (需要掌握虚拟语气)

结果分析（强调必要性/重要性）

- 解释：分析某观点、现象或行为带来的直接或间接后果，回答“这一现象会导致什么”
- 例如：这一转变显著减少了温室气体排放，有助于缓解气候变化的影响，并改善全球空气质量。
- This transition has significantly reduced greenhouse gas emissions, helping to mitigate the impacts of climate change and improve global

air quality.

合理性推断（因果论证）

解释：通过推理或假设分析某观点的合理性或必然性，强调其内在逻辑。

例如：过多的屏幕时间阻碍了儿童的身体和社交发展，因为这减少了他们进行户外活动和面对面互动的机会。

Excessive screen time hinders children's physical and social development, as it reduces their opportunities for outdoor activities and face-to-face interactions.

反面假设/假设论证（不常用，用出来可以让考官眼前一亮）

解释：假设反面情况，通过强调可能的负面影响来突出观点的重要性或紧迫性。

例如：如果没有这些法规，工业可能会继续不负责任地污染环境，从而导致严重的环境退化和公共健康危机。

Without these regulations, industries might continue to pollute the environment irresponsibly, leading to severe environmental degradation

让步（只用于反驳某观点）

解释：尽管某观点有很多优点，但缺点仍然不可忽视

例如：虽然降低生产成本确实有一定的价值，但它忽视了更重要的因素，例如在高质量材料上投资带来的长期收益。

While reducing production costs does have some value, it overlooks more important factors, such as the long-term benefits of investing in high-quality materials.

总结（收束整段内容）

解释：因此，xxx是有道理的。

例如：因此，优先考虑绿地对城市的长期活力至关重要。

Therefore, prioritizing green spaces is crucial to the long-term vitality of cities.

##**让步段写作示范**

什么是让步段：

【【牛津学联】基因技术是否会破坏人性-正方1】 7:54

[https://www.bilibili.com/video/BV145411A7Aj/?share_source=copy_web&vd_source=d6f90bd8e01db48f7de4c239ac5b6405]

Let us pause and reflect: do we need a reality check? Critics might ask—are we still human, or have we become irrational beings? Aren't we blindly chasing an illusion of perfection? Could we truly restrain our baser impulses, or responsibly regulate genetic engineering?批判者或许会认为我们能遏制本能冲动，负责任地约束基因工程的应用。

History repeats itself. Consider our obsession with cosmetic surgery, or how we rationalize animal testing to push scientific boundaries—just as we once did with nuclear energy, now one of humanity's greatest threats. This same reckless enthusiasm now drives the desire to design offspring like consumer goods—handbags, shoes, or accessories—blurring the ethical line between commodities and human life.

历史总在重演。想想我们对整容手术的痴迷，或是用动物实验推动科研时找的借口——正如我们当年对待核能的态度，而如今它已成为人类最大的威胁之一。同样的狂热如今正驱动着将后代设计成消费品般的欲望——如同手提包、鞋子或配饰——这模糊了商品与人类生命之间的伦理界限。

提出对方观点--反驳对方观点--上价值（不好的后果）

反方可能认为人类有足够多的理智来遏制本能冲动，负责任地约束基因工程的应用。（反方的观点）但是历史证明这个结论是荒谬的。（驳斥反方+我自己的观点句）例如人类至今对整容手术的痴迷，或是用动物实验推动科研时找的借口。现在同样的狂热如今正驱动着将后代设计成消费品般的欲望——如同手提包、鞋子或配饰。（丰富的例子/论述）这些行为将会模糊了商品与人类生命之间的伦理界限。（升华）

让步自身缺点+可以解决---政策型

Conversely,critics of(立场)/Nevertheless,some critics argue that it spurs individuals to （正方观点）At the core of this argument is the fact that(解释). However,these concerns can be addressed through effective()regulation and the adoption of supportive financial policies.The long-term benefits of a()are likely to surpass any initial challenges.

提出对方论点的最终目的是佐证自己的观点！

让步两种思路参考

让步：反对意见+解释+However批判

Conversely,proponents of(立场)/Nevertheless,some critics argue that it spurs

individuals to （反方观点）At the core of this argument is the fact that(解释).

揭露缺点

However,upon closer examination,this perspective overlooks the potential negative consequences of (缺点) , mainly due to(原因) have detrimental effects on XXX) .+例子

让步自身缺点+可以解决---政策型

Conversely,critics of(立场)/Nevertheless,some critics argue that it spurs individuals to （正方观点）At the core of this argument is the fact that(解释). However,these concerns can be addressed through eff ective()regulation and the adoption of supportive fi nancial policies. The long-term benefi ts of a()are likely to surpass any initial challenges.

exercise 2:

对“整容行业繁荣利于培养良性经济”这一论点的进行让步：
先承认对方观点的合理性（整容行业确实有某些好处），再转折指出其局限性或不足以支持“良性经济”，从而加强自己的立场。

Admittedly, the cosmetic surgery industry does contribute to economic growth in certain ways. It creates numerous job opportunities for surgeons,nurses, and beauty consultants, while also generating substantial tax revenue for governments. 续写：

反驳：这不是良性的经济发展-however, this trend is not a phenomenon of a healthy sustainable economic development.

解释：因为整容行业的消费带来的经济繁荣建立在社会经济向上的基础上，而且会极大程度造成社会市场波动；/泡沫经济/法律问题/挤占社会资源

This stems from the fact that the fl ourishing are brought by the consuming,which deeply rooted in the upgoing societal economic developmeny.Furthermore,the unstable industry situation might cause the fl uctuation of market.

例子：例如，韩国首尔的整容诊所在疫情期间倒闭了将近30%，并造成了大规模失业情况；For instance,30% of the cosmetic surgery clinic in Seoul broke down during the epidemic period,contributing to huge amount of unemployment.
因此，整容行业只能放大经济风险，而不能长久创造社会价值。

Thus, the cosmetic surgery industry could only exacerbating the economic risk rather than creating long-term societal value.

让步：反对意见+解释+However批判（抽掉对方一块砖）--进攻

Conversely,proponents of(立场)/Nevertheless,some critics argue that it spurs individuals to （反方观点）At the core of this argument is the fact that(解释). 揭露缺点

However,upon closer examination,this perspective overlooks the potential negative consequences of (缺点) , mainly due to(原因 have detrimental effects on XXX) .+例子

让步自身缺点+可以解决（对方尝试抽掉你一块砖，你抢回来）--防御

Conversely,critics of(立场)/Nevertheless,some critics argue that it spurs individuals to （正方观点）At the core of this argument is the fact that(解释). However,these concerns can be addressed through eff ective()regulation and the adoption of supportive fi nancial policies.The long-term benefi ts of a()are likely to surpass any initial challenges.

本次练习：

Access to clean water is a basic human right. Therefore, every home should have a water supply that is provided free of charge. Do you agree or disagree?

disagree

作业

As the population is soaring ,there is a heated debate over whether a water supply should be provided for free or supplying the water resources without any charge , since the availablity of clean water is one of the basic human rights.From my perspective , I strongly disagree with this opinion .

分论点1:Since people could not live without water , worldwide governments' expenditures may increase sharply .Nowadays, water resources market in many countries is controlled by national corporations.If water resources are available at no cost, the governments' income from water resources market will be cutted while the government expenditure on providing water still exist.Additionally , in a global

perspective, less-developed countries in Africa have little budget to provide their citizens with enough water supplies. Therefore, in my point of view, making every home with a free water supply is unrealistic.

分论点2: When the water resources are not to be charged, people may waste limited water resources. In other words, people have more awareness on water usage when they have to pay for it. For instance, some people in Arab states start to recycle the water because the price of water resources is high due to the lackage of water. Furthermore, it is a responsibility for human beings to cherish (应该用 preserve) the limited water resource on Earth. Saving water can benefit the environment such as rivers, lakes, oceans and the creatures living in water. 让步: Admittedly, everybody has the rights to access the clean water. However, upon closer examination, Accessing the water for free overlooks its potential negative consequences. What's more, we can lower the cost of accessing water and let every home have an affordable water supply.

总结: In conclusion, prioritizing the expenditure of providing everybody (应该用 the public) with free water is crucial to the sustainability of water usage. While the population is rapidly ascending, supplying the water with affordable cost is a more appropriate way for defending our basic rights to access our precious water resources.

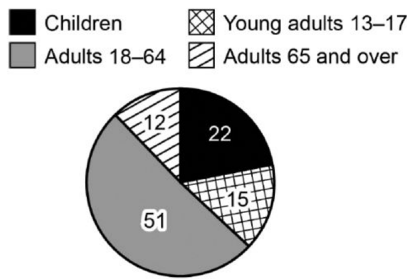

C20-Test 3-Task 1

The charts below give information about a public library in a town called Little Chalfont.

Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

Little Chalfont Library

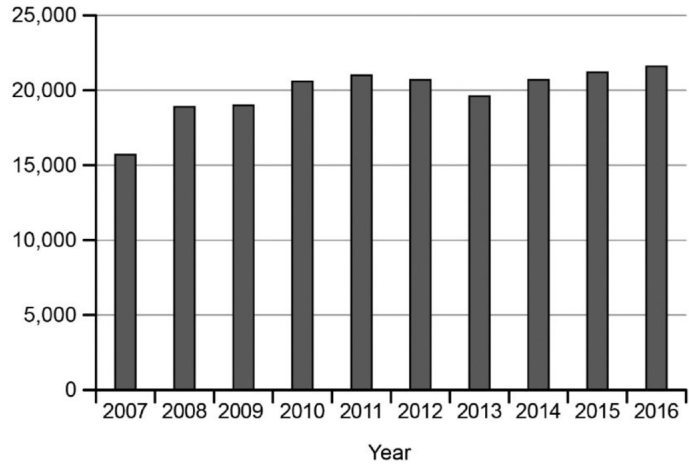

Age of library members (2016)

Total loans by category (2016)

Children's fiction	38%
Children's non-fiction	6%
Children's DVDs	1%
Young adults	2%
Adult fiction	38%
Adult non-fiction	13%
Adult audio books	2%

Total number of loans (2007–2016)

C20-Test 4-Task 1

The diagram below shows how fabric is manufactured from bamboo. Summarise the information by selecting and reporting the main features, and make comparisons where relevant.

How bamboo fabric is made
