

IELTS Writing 6

主体段固定模版：观点+解释（解释是为了具体化）+例子+总结

例如说保护环境是一件好事=》太泛泛而谈了=》（更具体化地）良好环境能维持产业链的平衡

那么这样我就更好反驳了，因为我可以说为了保护环境，一些工厂被迫关停=》短期不利于当地经济发展，并且会造成失业

除了这样的固定模板，你还可以用：

扩展延伸的展开性论证（支持性理由）

解释：为什么会出现上一句提到的现象，为什么上一句提到的观点是正确的，把观点进一步拆分论述

例如：城市的交通拥堵非常严重（观点或现象）。这是因为城市往往未能投入足够的公共交通系统建设，迫使居民在日常通勤中严重依赖私家车（扩展延伸）。（直接解释“城市交通拥堵的现状”）Urban traffic congestion is very severe . This stems from the fact that cities often fail to invest adequately in public transportation systems, forcing residents to heavily rely on private cars for their daily commutes **(elaboration).**

还例如：男女平等分担家务的一个重要原因是公平（观点或现象）。当双方都对家务做出同等贡献时，可以确保任何一方都不会感到负担过重（扩展延伸）。（直接解释“为什么平等分担家务能够体现公平”）

An equal division of household chores between men and women is important for fairness(viewpoint or phenomenon). When both parties make equal contributions to housework, it ensures that neither side feels overburdened **(elaboration).**

举例论证

解释：例如...，用于佐证上一个观点，可以列举实际的数据或情况，也可以列举虚拟场景，再通过合理性推断梳理内容

例如：荷兰通过自动化已经提升了20%的畜牧业效率（实际）

The Netherlands has increased the efficiency of its livestock farming by 20% through automation(actual).

例如：当机器人助手承担所有家务时，人们可能会丧失独立完成基本任务的能力（假设性情景）

For example: when robot assistants take over all household chores, people may lose the ability to independently complete basic tasks(hypothetical).
（需要掌握虚拟语气）

结果分析（强调必要性/重要性）

解释：分析某观点、现象或行为带来的直接或间接后果，回答“这一现象会导致什么”

例如：这一转变显著减少了温室气体排放，有助于缓解气候变化的影响，并改善全球空气质量。

This transition has significantly reduced greenhouse gas emissions, helping to mitigate the impacts of climate change and improve global air quality.

合理性推断（因果论证）

解释：通过推理或假设分析某观点的合理性或必然性，强调其内在逻辑。

例如：过多的屏幕时间阻碍了儿童的身体和社交发展，因为这减少了他们进行户外活动和面对面互动的机会。

Excessive screen time hinders children's physical and social development, as it reduces their opportunities for outdoor activities and face-to-face interactions.

反面假设/假设论证（不常用，用出来可以让考官眼前一亮）

解释：假设反面情况，通过强调可能的负面影响来突出观点的重要性或紧迫性。

例如：如果没有这些法规，工业可能会继续不负责任地污染环境，从而导致严重的环境退化和公共健康危机。

Without these regulations, industries might continue to pollute the environment irresponsibly, leading to severe environmental degradation and a public health crisis.

让步（只用于反驳某观点）

解释：尽管某观点有很多优点，但缺点仍然不可忽视

例如：虽然降低生产成本确实有一定的价值，但它忽视了更重要的因素，例如在高质量材料上投资带来的长期收益。

While reducing production costs does have some value, it overlooks more important factors, such as the long-term benefits of investing in high-quality materials.

注意，这个让步段模板在一开始从肯定对方观点，在下一句就变成了否定对方观点

总结（收束整段内容）

解释：因此，xxx是有道理的。

例如：因此，优先考虑绿地对城市的长期活力至关重要。

Therefore, prioritizing green spaces is crucial to the long-term vitality of cities.

让步段的论证逻辑一般分成两条：

让步：反对意见+解释+However批判，骂一骂自己再骂对方

Conversely,proponents of(立场)/Nevertheless,some critics argue that it spurs individuals to （反方观点）At the core of this argument is the fact that(解释).

揭露缺点

However,upon closer examination,this perspective overlooks the potential negative consequences of (缺点) , mainly due to(原因) have detrimental effects on XXX) .+例子

让步自身缺点+可以解决---政策型，夸一夸对方，再说我的更能达到总目标

Conversely,critics of(立场)/Nevertheless,some critics argue that it spurs individuals to （正方观点）At the core of this argument is the fact that(解释).

However,these concerns can be addressed through eff ective()regulation and the adoption of supportive fi nancial policies. The long-term benefi ts of a()are likely to surpass any initial challenges.

分论点句子不应当反着来写，也就是：

Access to clean water is a basic human right. Therefore, every home shouldhave a water supply that is provided free of charge. Do you agree or disagree?

例如说分歧点在于：要不要对水 free of charge

分论点 1:Since people could not live without water , worldwide governments' expenditures mayincrease sharply.（太间接了，直接表明你的分论点一，然后对应题目）

建议①：在写大作文的时候，需要有“分歧点-总目标”的思维，也就是明确这个题目的分歧在哪？同时明确这个题目的总目标是为了什么

例如这道题，主要分歧点在于要不要对水 free of charge；总目标是为了推动人类社会发展，让每个人都能喝到水

建议②：建议每一个句子前都有一个逻辑提示词，例如举例子的時候前面就来个for instance

建议③：Therefore, in my point of view, making every home with a free water supply is （financially）unrealistic.

这里的总结句有点太空泛，应当至少要具体到 financially

paradigm

解释：需求是固定的=》这笔收入是稳定的=》政府支出有着落=》形成一个稳定的循环

例子：收入拿去建什么水资源基础设施了、支出又怎么怎么了

总结：在水资源的收费是经济上pratical的

Taking charge of water resources can increase the governments' tax and eventually gurantee the mantainance of water supply system sustainably. That is because everyone cannot live without water , the governments' revenue(可以用income吗)on(用on 还是 towards)water resources are stable.In turn,having a stable income is necessary for sercuring the governments' expenditure on providing every families with available water resources. For instance , China's governments are using their revenue from imposing taxes to bui ld water treatment plants , in order to make water resources available to everyone. Therefore,in my point of view, taking charge of the water resource is practical and realistic .

让步段应该怎么改：

注意，让步段也是论证的一部分，不应当作为锦上添花

我的答案：Admittedly, everybody has the rights to access the clean water.

However,upon closer examination,Accessing the water for free overlooks its potential negative consequences. What's more, we can lower the cost of accessing water and let every home have a aff ordable water supply.

让步：

范文：诚然，每个人都享有获取清洁用水的权利，这一点毋庸置疑。然而，将“获取权利”等同于“完全免费供应”却是一种危险的逻辑跳跃——它忽视了免费供水可能带来的诸多负面后果。更重要的是，保障基本人权与实施合理收费并不矛盾。我们完全可以通过政府补贴、阶梯水价或针对低收入家庭的水费减免政策，（举例也不用一板一眼）在确保人人负担得起水费的同时，避免免费供应所引发的浪费和财政压力。（在这里因为是一种call back所以不用解释太详细）

Admittedly, it is undeniable that everyone has the right to access clean water. However,upon closer examination,equating "the right to access"

with "completely free supply" is a dangerous logical leap— **it overlooks**

the numerous negative consequences that free water supply may bring

. **More importantly,protecting basic human rights and implementing**

reasonable charges are not contradictory. We can ensure that every household can afford water through measures such as government subsidies, tiered water pricing, or fee reductions for low-income families, while simultaneously avoiding the waste and financial strain caused by free supply. (总结)

接下来是本节课的内容

开头和结尾

开头

背景+改写+自己的观点

结尾

总结（立场+观点）+升华

开头需要完成的任务

- 1. 开头有没有表明立场（完整）
- 2. 审题是否有偏差（回应题目的核心分歧点）
- 3. 总目的的思维（教育类——目的是从个人来说是促进个人成长，从社会上是维持人类文明延续；科技类——解决现实问题；维护可持续发展）（用stakeholder多角度思考）

这样有利于思考分论点+更方便写总结句、升华、观点句

怎么使用这样的思维呢？

例如那个水资源那道题，在让步段里面，我应当写：虽然不收水费有好处，但是它忽略了更大的问题，更大的潜在风险

或者是，不收水费有好处，但是收水费的好处更能贴近总目标的要求（或者我这个方案，能通过一些替代措施alternatives去改进，进而更贴近总目标）

同时，在开头，我也可以在背景句里面透露出我的态度

例如**Police in Britain do not carry guns Some people believe that it(指的是不配枪) will make citizens unprotected** but some suggest that **it would reduce violence in society. Discuss those two views and give your opinion.**

两种写法，表明不同态度

(Guns as a self-defenced weapon may not be equipped by British police.) Recently, there is a point of view believe that british police without carrying guns can decrease the crime rate of the society. However, some people argue that it is dangerous and it cannot guarantee citizens' safety. I'm strongly flavorable with the

former opinion .
改写不是重写/重述

(Guns as a self-defence weapon may not be equipped by British police.)Recently,there is a point of view believe that british police without carrying guns can decrease the crime rate of the society.However, some people argue that it is dangerous and it cannot guarantee citizens' safety. I'm strongly favorable with the latter opinion .

就例如题目是按照什么顺序来写的你就要按照什么顺序来写，只能换词或者改结构

(Guns as a dangerous killer can not be equipped by British police.)Some advocate that it may reduce the sense of safety for citizens, while others assert that it may decrease social violent accidents.After a careful consideration of both sides,I align with the former viewpoint.

结尾段

结尾段：回应任务+总结（也就是重申立场，并且再次强调己方的观点）
In conclusion/Ultimately ,after a comprehensive analysis of both perspectives ,while （A） has its place in certain contexts, I firmly believe that （B） should be the cornerstone of our interactions in modern society. /the potential benefits of(B)are compelling,involving(好处1)and(好处2).
（突出对比型）
it is evident that the merits of （B） , such as （） and （），significantly prevail over the potential demerits.
例句： In conclusion, after a comprehensive analysis of both perspectives, while **digital communication** has its place in certain contexts, I firmly believe that **genuine, face-to-face interaction** should be the cornerstone of our relationships in modern society. （再次强调自己的观点） The potential benefits of authentic human connection are compelling, involving **deeper emotional bonds** and **more nuanced non-verbal understanding** . (概括)
最后升华：从目的的角度思考更深的：例如这里的face to face 可以帮助我们更好地实现**authentic human connection**
还是以之前的配枪不配枪为例子

exercise:
不配枪无法保证居民安全
discuss 1配枪能在必要情况下用武力震慑犯罪者或保护居民的安全。
discuss 2不配枪可以减轻社会暴力：避免冲突升级
（让步--）思路1：从discuss 1思考：
思路2：从discuss2思考：有些人认为警察会暴力执法=》没有枪就不会暴力执法吗？=》这是程序问题（点明本质/没有这样的逻辑关系）
在思考的时候我们需要反着来思考
而且两个分论点是必要的
In conclusion ,
while 不配枪 has its place in certain contexts,I firmly believe that **genuine, face-to-face interaction** should be the cornerstone of our relationships in modern society.

不同主题的总目标

教育
科技
社会（water supply）=》维护社会稳定，促进社会发展/题目想解决的问题是啥就是那个总目标
犯罪（目的：①维护社会稳定 ②实现路径不一样=》更温和还是更严厉；构建和谐社会）
环境
国际问题（**本国利益**/短期付出-国际合作共赢，在长远上来说有利于本国利益）
还有不同主题之间的交叉

案例

Children in secondary school study international news as a subject.Do you think it is a good view?
主题：**education--cultivate a person--mankind development**
抓住题目的真正争点：**secondary school/**as a subject/**international news**（反对来说，因为反对可以抓任意一个点）
但是同意需要全同意，就下面这个题目一样
但是不同意，在站立场的时候站一种情况
Nowadays, more poor students behaviours occurred in school , what are the reasons behind such phenomenon? （这道题的本质在于"现在更多"）
因为这个是同意，所以全同意的话要一一对应
下面两个思路哪一个更好？ why?
青少年犯罪问题--家庭的漠视
青少年**电子成瘾**问题影响到上课的效率--家庭/学校的监管不够

Family has a great influence on children's development, but the influence from outside of home plays a bigger part in children's life. Do you agree or disagree?

冲突点：outside vs family =》哪个对孩子的影响更大？

而且这里需要包含对比的句子

总目标：孩子个体——个人成长

family:

early age/childhood--base personality--simulate

supporter/harbor--emotional support

outside:

school-long time/authority

society--social platform (online (adundant) /offline)

Nowadays,the Internet and schools gradually become more infl uential than family on children's personal growth.这句话太直接了， 不是在做铺垫Some people assert that family still play a vital role on kids' development, while others advocate that the factors outside of family play a more important role than the family in kids' personal growth .After a careful consideration of both sides,I fi rmly ailgn with the latter viewpoint.

plays a vital role in children's development

ailgn 拼写错误应为 align

The Internet,especially social medias,attracts children's attention and makes the youngster obsess with it rather than chat with family .Namely, -in other words social medias draw children's attention from regular family activities such as family trips or watching movies together . For example,children spend most of the time on scrolling through the social media or playing games and pay less attention and time on doing houseworks or engaging family activities .Therefore, parents have less chances to und erstand their children . In some extreme cases, the friends they made on the Internet know more about their children .For this reason , the Internet is more likely to become an important part on children's mental growth .

obsess with — obsess 作及物动词常用被动 be obsessed with， 或作不及物用 obsess over改为 are obsessed with it 或 obsess over it

youngsters obsessed with it rather than chatting with their families

draw ... from 可接受， 但 draw ... away from 更准确改为 draw children's attention away from

on doing houseworks — housework 不可数， 且 spend time on doing 略显冗余， 可直接用 spend time doing改为 doing housework 或 on housework

engaging family activities 缺少介词应为 engaging in family activities

know more about their children — 这里代词指代混乱， "他们的孩子"？ 前文主语是 parents， 此处应为"他们的孩子"即these children。 逻辑上没问题但表述生硬改为 know more about them than their parents do

Additionally,the schools gradually plays a bigger part in children's life,especially at the adolescent stage.Because teenagers spend most of their time in the schools and the desire of being accepted with peers becomes stronger,teenagers sometimes oppose with their parents' idea.To put it in another way, children at the adolescent are easily aff ected by the peers .For instance, some teenagers eagerly want to catch up the peers' trend in order to accept by them . Once they have returned home , they may locked themselves in their rooms to chat with their classmates online.Rather than spending time with their families , they prefer to playing with their classmates.Taken together, the schools are taking a more important part in children's life.

at the adolescent stage — 更自然说 during adolescence改为 during adolescence 改为 desire for acceptance 或 desire to be accepted

改为 accepted by peers

in adolescence

catch up the peers' trend — 应为 catch up with改为 catch up with peer trends 改为 may lock (主动) 或 may lock themselves

Overall, schools are taking a more important part in children's lives.

Admittedly , the family still plays an signifi cant character on children's personal growth,especially providing an emotional harbor for children.However,as the Internet becomes a regular routine in the moder society and children grow older, Upholding rigidly on this opinion might be detrimental to children's personal growth.For this reason , it is better to admit that the factors from outside of family become more infl uential and start to spend more time on understanding children's behaviours and though ts.

"承认对方观点"和"驳斥对方观点"之间缺乏逻辑咬合，导致让步段看起来像是"先退一步，然后说了一句无关的话"。

对方观点没说清"家庭仍然重要"——但这个"重要"到底体现在哪些具体方面？没说透。

驳斥与承认脱节承认的是"家庭提供情感港湾"，驳斥的却是"固执坚持家庭最重要不好"——这两件事没有直接对打。

没有"点对点"真正的点对点驳斥应该是：承认家庭有X优势 → 但指出X优势的局限性 / 或指出对方夸大了X优势。你的驳斥没有针对"情感港湾"这个具体点。

驳斥力度弱"固执坚持不好"只是说这样做不对，但没有正面论证"为什么外部因素比家庭更重要"。

In conclusion,while the former opinion has its place in certain contexts,I fi rmly believe that the infl uence from outside of home plays a bigger part in children's life. In modern society,the potential benefi ts of the latter opinion can be more compelling and can help the parents comprehend their children and support their children's personal growth well.
