

语法点错误积累

draw ... from 可接受, 但 draw ... away from 更准确改为 draw children's attention away from

obsess with — obsess 作及物动词常用被动 be obsessed with, 或作不及物用 obsess over改为 are obsessed with it 或 obsess over it

on doing houseworks — housework 不可数, 且 spend time on doing 略显冗余, 可直接用 spend time doing改为 doing housework 或 on housework

engaging family activities 缺少介词应为 engaging in family activities

know more about their children — 这里代词指代混乱

at the adolescent stage — 更自然说 during adolescence改为 during adolescence/ in adolescence

改为 desire for acceptance 或 desire to be accepted

改为 accepted by peers

catch up the peers' trend — 应为 catch up with改为 catch up with peer trends

改为 may lock (主动) 或 may lock themselves

冠词多余 (泛指"清洁用水"不需定冠词) access clean water

指代模糊 ("its"指代不清——是"免费供水"的后果还是"水"的后果?) Providing water for free overlooks the potential negative consequences

冠词错误 (affordable以元音音素开头, 应用an) have an affordable water supply

逻辑/用词不当 ("limited"前缺冠词, 且此处应为"the limited"指地球上有限的水资源) waste the limited water resources

固定搭配错误 (word应为复数) In other words

介词搭配错误 (awareness后接of/about) have more awareness of water usage

介词/ 名词  误用 ("Arabs"指阿拉伯人, 应说"in Arab countries"或"in the Arab world") some people in Arab countries / the Arab world

名词错误 (lackage不是标准英语词汇, 应为shortage/scarcity) due to the shortage / scarcity of water

用词不当 (cherish感情色彩过重, 且你自己在括号里也意识到了应为preserve) to preserve / conserve the limited water resources

逻辑不当 (环境不是"例如"河流湖泊, 河流湖泊是环境的组成部分; 应改为"including"或另起一句) benefit the environment, including rivers, lakes, oceans, and aquatic life

逻辑关系误用 ("Since"表示"既然/因为", 但此处前面并无因果关系; 实际上你想说"因为水是必需品, 所以政府支出会增加", 这个因果关系应在同一句中体现) Because people could not live without water, governments' expenditures may increase sharply.

过去分词形式错误 (cut的过去分词是cut, 不是cutted) will be cut

主谓不一致 (expenditure为单数, 谓语应用exists) still exists

介词搭配错误 (应为from a global perspective) from a global perspective

拼写错误 (county=县; country=国家) less-developed countries

句式杂糅 ("make every home with"结构错误, 应为"make every home have"或"provide every home with") providing every home with a free water supply is unrealistic

On the south side of the road, the area of the fruit trees is newly possessed a farm shop that tourists can buy some agricultural goods here."possessed"用词严重错误 (应为"has gained"或"now contains") ; "that tourists can buy...here"定语从句冗余 ("here"多余) ; "agricultural goods"可改为"local produce"

There is some chicken on the south of the farmhouse .
注意是养鸡的场合Some chickens are kept to the south of the farmhouse.

Once harvested, the plant material is mechanically preprocessed.简化结构，使用
“once + 过去分词”更简洁正式。After preprocessing ,then they become cellulose.

less 20% percent语法+词汇双重错误：缺 than，且 % percent 重复

bigger 用于百分比描述百分比/人口比例应用 higher， bigger 多用于物体/数字本身

the other cities' population所有格用法可接受， 但不如 that in other cities 地道

took place in Japan可接受， 但 occurred in / was observed in 更专业

重复使用 population在相邻句子中多次出现 the population in..., 可用 that 替代

Japan,France,New Zealand and Germany had a **inconsiderable** diff erence between
the population in largest two cities and the rest of them, which was **less than** 5
percent . 第一句话过长；冠词缺失应为 in the largest two

"5-percent" → 应为 "5-percentage-point" (百分比 vs 百分点)

"caused household sector became" → 语法错误 (cause + to do) "caused the
household sector to become"

"service sector" → 缺冠词"the service sector"

"the similar trend" → 表达不准确"a similar upward trend"

Weather and Financial Reasources respectively stand at 22 percent and 20 percent.
“respectively” 位置调整到句尾更自然。

Quality of Life is considered to be the most dominant factor among the people
whether staying in UK or not.“among the people whether staying in UK or not” 表达
生硬且语法不通顺。“dominant” 可以， 但不如 “significant” 或直接用 “the main factor” 自
然。

并列当中的冠词是一个很细微但是很重要的语法问题， 所以27题只能填origins
因为如果origins前面有定冠词， 而development前面没有的话， the这个定冠词就同时冠
在了两个词头上， 那么就相当于这两个名词的意思是一起的。在对人的称呼当中， 这种情况
更特别常见
对比一下这两个称呼The President and chairperson和the President and the
chairperson
他们有什么区别
而且像这种summary提纲的话， 大多数都是“简明英语”， 在冠词可用可不用的地方， 基本
上优先不用

这个很简单的 **名词** 做前置定语肯定不用复数
所以不会有第一个名词是复数， 而第二个名词是单数的情况
